

Commvault's Metallic SaaS Data Protection Now Available in the Microsoft Azure Marketplace

August 12, 2020

Microsoft Azure customers now gain access to Metallic™ Endpoint Backup and Metallic Office 365 Backup to take advantage of the scalability, reliability, and agility of Azure to drive application development and shape business strategies.

TINTON FALLS, N.J., Aug. 12, 2020 /PRNewswire/ -- Commvault (NASDAQ: CVLT), a recognized global enterprise software leader in the management of data across cloud and on-premises environments, has announced the availability of Metallic's Software-as-a-Service (SaaS) data protection portfolio in the Microsoft [Azure Marketplace](#), an online store providing applications and services for use on Azure. Commvault customers can now take advantage of the productive and trusted Azure cloud platform, with streamlined deployment and management.

Based on Commvault's core IP, [Metallic SaaS data protection](#) provides customers with a scalable, secure, and simple way to protect their data within a modern, hybrid cloud environment. [Metallic Endpoint Backup and Recovery](#) joins [Metallic Backup and Recovery for Microsoft Office 365](#) as the second solution in Metallic's portfolio to be available as in the Azure Marketplace. Supporting the proliferation of remote work in today's environment, Metallic Endpoint Backup & Recovery protects laptop and desktop data without compromising productivity – offering flexible and granular restore capabilities along with scalability and unlimited cloud storage.

"As customers embrace the simplicity of a SaaS model, the availability of Metallic's SaaS data protection solutions in the Azure Marketplace is directly aligned with our goal to make our solutions accessible and easy to consume," said Janet Geisen, Vice President of Operations and Programs, Metallic. "We also want to support customers at any phase of their digital transformation, whether they are moving to, or already leveraging, the cloud. Availability in the Azure Marketplace gives them an easy entry point to their data protection solution, using Metallic to safeguard data across their hybrid or cloud-native environment."

"Microsoft Azure Marketplace lets customers worldwide discover, try, and deploy software solutions that are certified and optimized to run on Azure," said Sajan Parihar, Senior Director, Microsoft Azure Platform at Microsoft Corp. "Azure Marketplace helps solutions like Commvault's Metallic SaaS Data Protection portfolio reach more customers and markets."

The Azure Marketplace is an online market for buying and selling cloud solutions certified to run on Azure. It helps connect companies seeking innovative, cloud-based solutions with partners who have developed solutions that are ready to use.
