

Commvault Wins Coveted "Outstanding Cyber Resilience" Global InfoSec Award for 2025

April 28, 2025

Commvault Recognized by Cyber Defense Magazine for Innovation in Cyber Resilience During RSAC Conference 2025

TINTON FALLS, N.J., April 28, 2025 /PRNewswire/ -- Commvault, a leading provider of cyber resilience and data protection solutions for the hybrid cloud, today announced it has won the Outstanding Cyber Resilience award from *Cyber Defense Magazine* (CDM), the industry's leading electronic information security magazine.

This recognition celebrates the Commvault Cloud platform, powered by Metallic AI, for its innovative approach to providing advanced cyber resilience and marks the second consecutive year Commvault has been recognized by the prestigious Global InfoSec Awards program. Commvault was honored with the "[Trailblazing Cyber Resilience](#)" Global InfoSec Award during last year's RSAC Conference.

"We are honored to be recognized by Cyber Defense Magazine for our leadership in Outstanding Cyber Resilience," said Tim Zonca, VP, Portfolio Marketing, Commvault. "This award underscores our commitment to providing innovative solutions like Commvault Cloud Cleanroom Recovery, empowering organizations to improve readiness and accelerate recoveries in the face of constant cyber threats."

"Commvault embodies three major features we judges look for to become winners: understanding tomorrow's threats, today, providing a cost-effective solution and innovating in unexpected ways that can help mitigate cyber risk and get one step ahead of the next breach," said Gary S. Miliefsky, Publisher of *Cyber Defense Magazine*.

Judged and independently voted on by CISSP, FMDHS, CEH, and certified security professionals, Commvault received the "Outstanding Cyber Resilience" award for the breadth and depth of its cyber resilience platform with offerings including [Cleanroom Recovery](#), [Clumio Backtrack](#), and [Cloud Rewind](#). The Commvault Cloud platform uniquely enables organizations to protect, test, and rapidly recover their data, applications, and production workloads – whether their data is on-premises, across public, private and hybrid clouds, over SaaS, or in multi-cloud environments – helping ensure they're able to quickly get back up and running following a disruptive event.

Commvault is thrilled to be a member of this coveted group of winners. See the full list on the [Cyber Defense Awards website](#).
