

## CommVault Drives Discussion on Mitigating Risks for Cloud Storage at Annual LegalTech Conference

January 25, 2011

OCEANPORT, N.J., Jan 25, 2011 (BUSINESS WIRE) --

[CommVault](#)(NASDAQ: CVLT):

### News Facts:

- CommVault's Shannon Smith, Esq., Information Governance Specialist, will moderate a Town Hall panel session featuring leading legal, [eDiscovery](#) and [Information Governance](#) executives at the [Annual LegalTech Conference](#) taking place Jan. 31 - Feb. 2 at the New York Hilton, New York City.
- The Town Hall session titled, "[Understanding and Reducing the Risk of Cloud Technology](#)," will begin at 12:00 noon ET on Tuesday, Feb. 1, 2011 and will share best practices on how to manage and mitigate risks associated with moving data off-site and into [cloud storage](#), addressing concerns with security, authenticity, chain of custody, jurisdiction and contractual challenges.
- [CommVault\(R\) Simpana\(R\) software](#) provides an effective framework for managing a range of information governance activities including retaining and accessing archive e-mail messages, files and documents, along with backup data. All this is achieved from a single console and a single infrastructure, that can provide one of the most comprehensive, risk-averse and cost-effective eDiscovery solutions that exists today.
- CommVault will exhibit at LegalTech in booth #1401 where company experts will showcase how Simpana software helps organizations achieve unprecedented agility in accessing information, managing risk and demonstrating governance across both physical and virtual environments.

### Town Hall Session: "Understanding and Mitigating the Risks of Cloud Storage"

You've heard the buzz about cloud technology. It's one of the newest computing frontiers and is generating massive interest from organizations seeking to outsource computing, applications and storage. It's true that migrating data to an external cloud can lead to sizable savings on capital and operational expenses. However, there are a host of potential security and privacy issues that can arise and expose organizations to unique risks.

- Does migration change the metadata or content in any way?
- What process is used to move data?
- Can a chain of custody for data be established?
- What is the physical location of my data and who has access?
- Does the data stay in one place?
- Is there legal hold and review capability in event of an eDiscovery request?
- What other types of companies have data co-located with mine and are they subjected to federal regulations or intense auditing that could impact my data?

**When:** Tuesday, Feb. 1, 2011; 12:00 noon - 1:00 pm ET

**Where:** The Hilton New York, New York City
