

Commvault Announces Commvault GO 2017, The Industry's Leading Event Dedicated to Protecting and Activating Data

December 21, 2016

- Second annual event brings together Commvault executives, customers, partners and other thought leaders to discuss and collaborate on the present and future of data backup, archive, recovery, and the cloud-
- Dynamic presentations, speaking sessions and hands-on training will empower attendees to maximize the value of all their data, wherever it resides-

TINTON FALLS, N.J., Dec. 21, 2016 /PRNewswire/ -- [Commvault](#) (NASDAQ: CVLT), a global leader in data protection and information management solutions, today announced its second annual customer conference, [Commvault GO 2017](#), will be held November 6-8, 2017 in Washington D.C. Commvault GO is *the* industry event dedicated to protecting and enabling digital business.

Building on the success of its sold-out inaugural conference, the event will bring together industry thought leaders, customers, partners and Commvault executives to discuss market forces and technology innovations – including the emergence of software defined storage, the continued rise of Big Data, the move towards compute in the cloud, data protection market dynamics and showcase new Commvault solutions. Throughout the event, attendees will discover how to leverage these innovations and market forces to implement powerful data backup, archive and recovery strategies that yield sustainable competitive advantages in today's dynamic digital economy.

To be held at one of the premier event locations on the Eastern Seaboard, Gaylord National Harbor, Commvault GO 2017 will feature thought provoking presentations from industry luminaries, breakout sessions with Commvault customers and employees, and exhibition displays representing the broad Commvault partner ecosystem. Located along the Potomac River, the Gaylord National Harbor is easily accessible by car and rail, and with close proximity to three international airports (Reagan National Airport, Dulles International Airport and Baltimore Washington International Airport).

Attendees at Commvault GO can expect presentations and discussions that address their most urgent and important data protection and management challenges, and provide them with the knowledge they need to build a path to a future where data is more secure, more accessible and more valuable than ever before.

"We are thrilled to be hosting Commvault GO 2017 in the nation's capital, where some of the most important conversations on data protection and governance are centered," said Chris Powell, chief marketing officer, Commvault. "Commvault GO will deliver attendees actionable knowledge on these and other data protection and management issues, knowledge that they can use to better protect data, uncover insights embedded in data and lower data administrative and other costs, creating more value for their digital businesses."

Commvault GO 2017 will also offer content rich breakout sessions in which customers can meet with their peers as well as other experts and Commvault developers to discuss best practices, learn of new innovations and build relationships as they seek to implement data protection and management strategies that address their organizations' business challenges. Additionally, Commvault will provide discounted training and certification at the conference, giving users the opportunity to sharpen their skill sets and earn professional certifications.

Commvault GO 2017 is ideal for business and public sector professionals who play strategic, leadership, and operational roles in data-driven organizations. The conference agenda will feature knowledge tracks and networking opportunities to meet the specific needs of CIOs, IT directors, IT architects, operations directors, system administrators, system analysts, system engineers, and technology leads for organizations in the financial services, public sector, healthcare, and other industries.
